

CUSTOMER IDENTIFICATION PROGRAM

As required by the USA Patriot Act of 2001, which requires financial institutions to help the government fight the funding of terrorism and money laundering activities, Pittsburgh Central Federal Credit Union must obtain basic identifying information from you and verify that information when you open a new account.

This means that members of our staff will ask you for some basic information such as your name, address, date of birth and other information designed to help us identify you. We may also ask to see documents identifying you such as a driver's license, passport or some other government-issued document. We appreciate your patience and understanding as we do our part in complying with the new account identification procedures required by law.
